EDUCATION

Hartnell College

A.S. in Computer Science

Salinas, CA

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, C++, Python, HTML, CSS

Frameworks/Libraries: React, Node.js, ACF, CPTUI

Databases/Tools: MySQL, Docker, Postman, Git, GitHub

Platforms/Services: AWS, WordPress, WPEngine

Other: Jira, Asana, Figma, ChatGPT, GitHub Copilot

EXPERIENCE

Senior Software Engineering Intern

Aug 2024 – Present

Digital Nest

Gilroy, CA

- Led 10+ development projects, mentoring interns, coordinating cross-team execution, and ensuring timely delivery in a high-volume, client-facing environment.
- Engineered a secure Stripe donation plugin with metadata capture, email confirmations, and robust webhook handling—giving full control over donor data while enabling personalized outreach and reporting.
- Supervised junior interns, conducted code reviews, and guided implementation of new features—enhancing donation modals, backend reliability, and overall system maintainability.
- Acted as project manager and QA tester for client-facing products, facilitating communication, defining launch requirements, and ensuring smooth rollouts through organized test phases.
- Integrated third-party APIs into WordPress for highly customized client functionality.

Software Engineering Intern

Jul 2023 – Aug 2024

Digital Nest

Salinas, CA

- Took over lead on a key project, coordinating styling, form logic, and UI delivery after previous dev exited.
- Led development of the OCCORD nonprofit website using WordPress + ACF + CPTUI, reducing external tech support reliance by 60%.
- Documented dev workflows, improving onboarding for future interns and knowledge retention.

PROJECTS

BizzNest Flow | *React.js, Node.js, MySQL, REST API*

2024-2025

- Designed and developed a full-stack platform for intern performance tracking, improving mentorship visibility and intern engagement by 30%.
- Built scalable RESTful APIs in Node.js for secure data storage and retrieval from MySQL, supporting 100% of platform interactions.
- Created responsive React dashboards and integrated feedback tools, boosting team participation by 20%.

Stripe Donation Plugin | *PHP, WordPress, Stripe API*

2024-2025

- Helped transition from Classy to a custom Stripe plugin, saving the organization over \$80K in platform fees and improving control over donor data and workflows.
- Developed and maintained a secure donation plugin with metadata capture and automated emails.
- Handled webhook events from Stripe, integrated address/phone inputs, and added donation validation.
- Mentored junior dev and managed ongoing updates to modal interface and backend logic.

Eye Tracker Tool | *PHP, JavaScript, AWS*

Apr 2025

- Built eye-tracking web platform to analyze user gaze for research and marketing purposes.
- Used JavaScript APIs to capture gaze data and synchronized screen recordings to S3.

Bot or Not | *React, Socket.io, Node.js, Docker, AWS*

Aug 2025

- Built and deployed a real-time multiplayer browser game with chat, voting, and AI mechanics.
- Developed a scalable backend with Dockerized Node.js/Socket.IO, ensuring smooth synchronization across players.

OCCORD Website | *PHP, CSS, WordPress*

Jun 2024

- Led buildout of OCCORD site including custom page templates, ACF integrations, and QA testing.
- Held weekly syncs with communications team to adjust layouts and meet launch milestones.
