PROFESSIONAL SUMMARY

Technology professional who enjoys building solutions, solving problems, and helping people. Experienced in software development, technical troubleshooting, and working with clients and stakeholders. Skilled in web technologies, databases, cloud tools, and supporting teams in fast-paced environments.

EDUCATION

Hartnell College

A.S. in Computer Science

Salinas, CA

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, C++, Python, HTML, CSS

Frameworks/Libraries: React, Node.js, ACF, CPTUI

Databases/Tools: MySQL, Docker, Postman, Git, GitHub

Platforms/Services: Microsoft 365, AWS, WordPress, WPEngine

Other: Jira, Asana, Figma, Outlook, Teams, Excel, Technical Documentation

EXPERIENCE

Outreach Coordinator (Limited-Term Position)

Mar 2026 – Present

Community Bridges

Watsonville, CA

- Coordinate communication between healthcare providers, community partners, and internal teams.
- Maintain records, track action items, and manage communications using Excel, Outlook, and Teams.
- Deliver presentations and provide program information to hospitals, clinics, nonprofits, and partners.
- Resolve inquiries and connect partners and clients with appropriate resources based on needs.
- Manage multiple priorities, schedules, follow-ups, and stakeholder requests in a fast-paced, community-facing environment.

Senior Software Engineering Associate

Aug 2024 – Aug 2025

Digital Nest

Gilroy, CA

- Diagnosed/resolved app, database, and workflow issues, improving system reliability and minimizing downtime.
- Built and maintained applications using SQL databases, writing queries to store, retrieve, and manage data.
- Configured and maintained domain and DNS settings, updating IP records and troubleshooting connectivity issues across client platforms.
- Set up/managed AWS to host and run backend applications, supporting deployments and system performance.
- Utilized SFTP connections to securely transfer and manage sensitive files between systems while maintaining data integrity.
- Led 10+ development projects, mentoring interns, coordinating cross-team execution, and ensuring timely delivery in a client-facing environment.

Software Engineering Associate

Jul 2023 – Aug 2024

Digital Nest

Salinas, CA

- Took ownership of a key client project, coordinating styling, form logic, and UI delivery after lead developer exited.
- Led development of the OCCORD nonprofit website using WordPress, ACF, and CPTUI, reducing reliance on external technical support.
- Documented development workflows to improve onboarding and knowledge retention.

PROJECTS

BizzNest Flow | *React.js, Node.js, MySQL, REST API*

2024 – 2025

- Designed and developed a full-stack platform for intern performance tracking, improving mentorship visibility and intern engagement.
- Built RESTful APIs in Node.js for secure data storage and retrieval from MySQL, supporting core platform interactions.
- Created responsive React dashboards and integrated feedback tools to support intern growth tracking and team participation.
